CONTENTS

who is
GLOBALTT

GLOBALTT, Private satellite operator located South of Brussels Belgium (EU), providing all internet satellite solutions for Africa (mainly), Middle-East, Europe, Asia and Caribbean's.

GLOBALTT was founded in 1987 developing innovative, quality and secured solutions for NGOs, Embassies and Enterprises such as Mining, Oil & Gas, Energy, Agriculture, Construction, Aviation, Hotels, Camps, Banks.

100% of all GLOBALTT's operations and management are on a same physical site, ensuring a fast and quick action on any requests of our customers (support, logistic, R&D, special request, etc..)

Flexible Solutions & Innovation

We continuously develop new solutions and services to meet all our client's satisfaction and stay the Best Satellite Internet Service Provider

Incredible Coverage

We cover a real big part of the whole world inch by inch, but mainly focusing on Africa, Europe, and the Middle East.

Customer Support

We provide a fully supportive team of professionals, in standby 24/7 online, offline, on-site partners or resellers. The most efficient is our Subscriber debugging support interactive WebSite

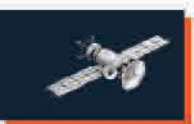

Our satellite teleport & operation located close to Brussels-Belgium including 8 main transmitting antennas for our operations, linked to **four(4) fibbers - 10 Gbps each - connected to the internet backbone.**

We transmit over satellite the internet and offer services in **L-Band, C-Band, KU-Band & KA-Band.** All our teleport infrastructure is under full monitoring alarm 24/7 and self-auto-maintenance.

Our service is orientate : Data - Video - Voice, Fixed, Transportable , Portable , Vehicle and Maritime operations, Permanent or Temporary or event Occasional Usage.

why

GLOBALTT DATA - VOICE - VIDEO

GLOBALTT use and manage the bandwidth of more than 25 satellites to cover client's areas. **Worldwide** L-Band / C-band / Ku-band / Ka-Band.

- 30 Years on the African market & all world in L-Band
- GlobalTT operate and offer all VSAT technologies (C, Ku, Ka)
- 4 X 10 Gbps fiber backbone.
- Very high service stability and reliability
- Delivery all over Africa- Door To Door (for specific countries)
- **New:** Worldwide - Fixed - Mobile - Maritime
- Technical partners and resellers all over Africa
- Fast delivery - all from stock - all tested and fully configured
- Monitoring, graph, alerts, Info/Event Logs, Security FW, etc...
- Unique development and added value & unique specific services
- **New:** Service for, Enterprises, NGOs, Embassie, Government, Military, ISP
- **New:** Ku Service World-Wide
- **New** full wireless solution indoor/outdoor for enterprises

GLOBALTT

TELEPORT

8 main transmitting antennas for our operations (11m, 9m, 6.3m, 4.3m, 3.8m etc.).

More than 25 antennas for tests and redundancy (2.4m, 1.8m).

Less than 4 hours of reaction 24/7 on all the teleport critical equipment.

All equipment are under monitoring and alarm 24/7 and self-auto-maintenance.

Energy resources (4 hours autonomy UPS) & main energy feed coming from a high power redundant loop.

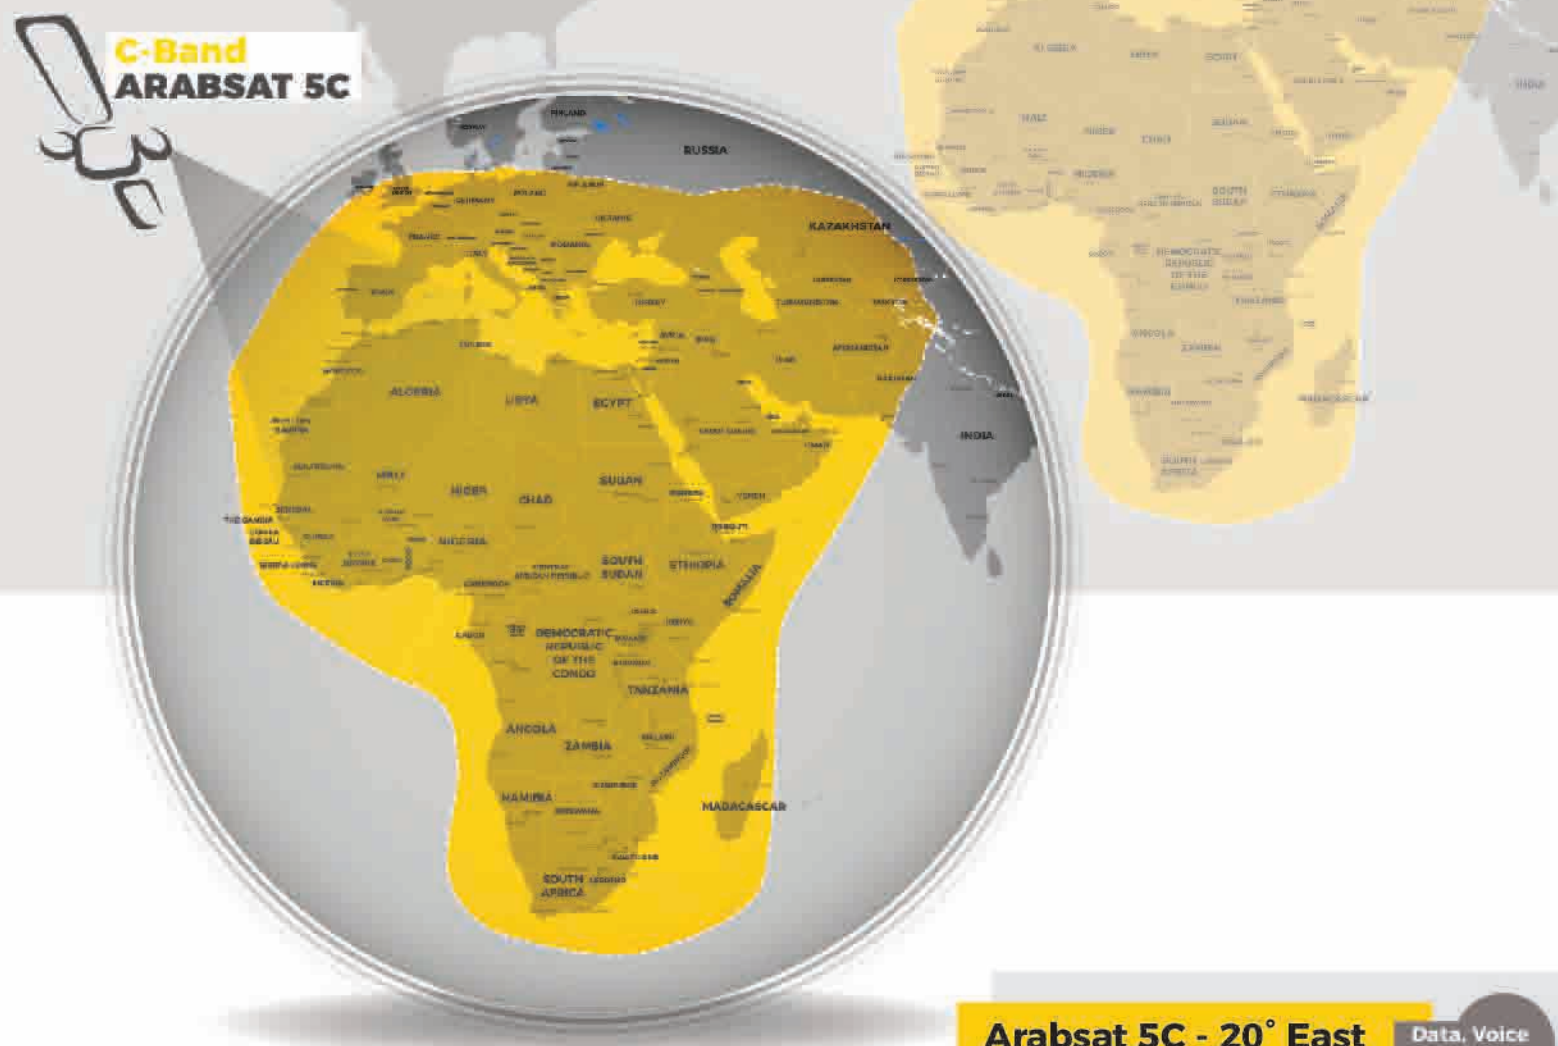

Tracking systems on the antennas (Satellite monitoring), Antenna de-icing (down to - 25° C)

Active maintenance of the whole site and high prevention on a daily basis.

Connection to redundancy Backbone Fibbers: 10 Gbps fiber Loop and excellent peering agreement.

C-Band Satellite Coverage

Arabsat 5C - 20° East
(Service Release)

Data, Voice
Broadcast

Examples of Countries Covered

Africa, Mauritania, Mali, Senegal, Guinea, Liberia, Sierra Leone, Ivory Coast, Burkina Faso, Benin, Ghana, Togo, Niger, Nigeria, Chad, Cameroon, Equatorial Guinea, Gabon, Central African Republic, South Sudan, Sudan, Eritrea, Ethiopia, Uganda, Kenya, Rwanda, Burundi, Zambia, Angola, Mozambique, Zimbabwe, Botswana, Namibia, Swaziland, South Africa, Lesotho, Tanzania,

- Max 50 Mbps Rx and 25 Mbps Tx
- Up to 300 computer connected
- Antenna size of 2.4m (standard)
- 1.8m and 3.8m/4.5m for ultra-high capacity
- SLA of 99.99% in C-Band
- Dedicated access (1:1) and shared access available.

C-Band Satellite Coverage

Amos17 - 17° East
(Service Release)

Data

Examples of Countries Covered

Senegal, The Gambia, Guinea, Bissau, Sierra Leone, Liberia, Cote Divoire, Ghana, Togo, Benin, Burkina Faso, Nigeria, Cameroon, Chad, DRC, Angola, South Sudan, Ethiopia, Djibouti, Eritrea, Somalia, Kenya, Tanzania, Rwanda, Burundi, Tanzania, Malawi, Mozambique, Zimbabwe, South Africa, Lesotho, Swaziland, Madagascar

- Max 1 Gbps Rx & 300 Mbps Tx
- 1.8 m , 2.4 m & 4.5m Dish
- Shared 4:1 & Dedicated 1:1
- Up to 1000 Users
- 99.99% SLA

Ku-Band Satellite Coverage

**T11N
Ku-Band**

T11N - 37.5° West
(Super High Capacity Available)

Data, Voice
Broadcast

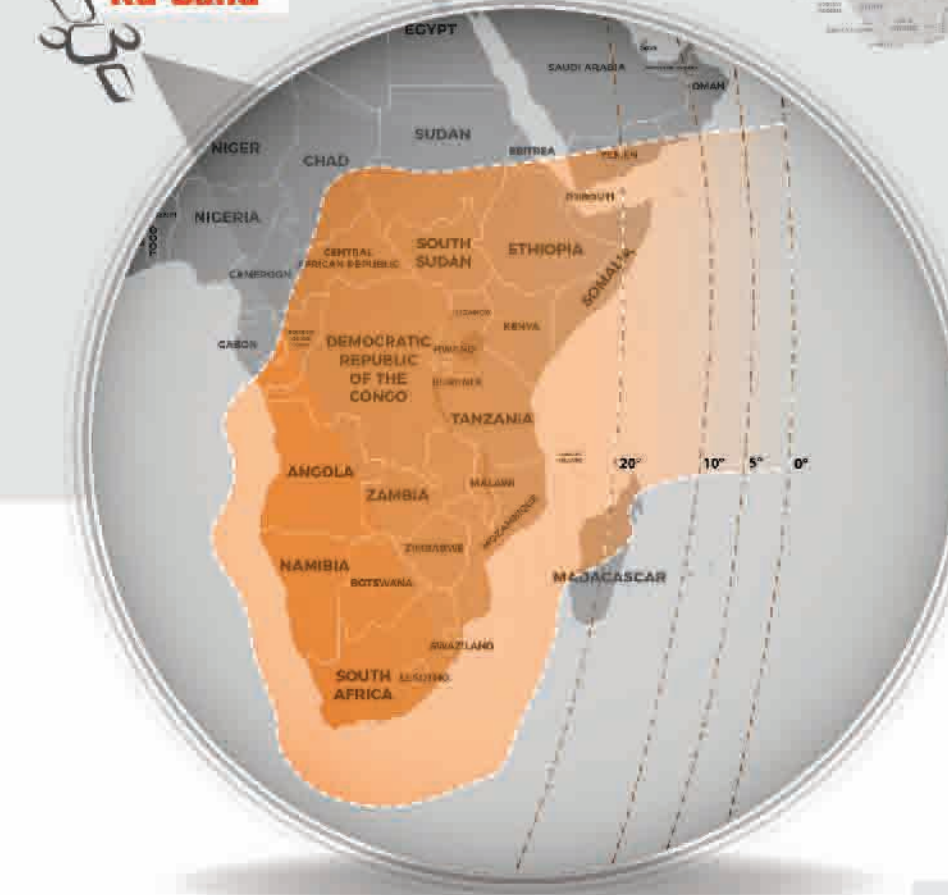

- SLA of 99.8% in Ku-Band
- Dedicated access (1:1) & shared access available
- Many options and unique added value developed
- B2B only

Examples of Countries Coverd

Mauritania, Mali, Senegal, Guinea, Liberia, Sierra Leone, Ivory Coast, Burkina Faso, Benin, Ghana, Togo, Niger, Nigeria, Chad, Cameroon, Equatorial Guinea, Gabon, Central African Republic, South Sudan, Sudan, Eritrea, Ethiopia, Uganda, Kenya, Rwanda, Burundi, Tanzania, Zambia, Angola, Mozambique, Zimbabwe, Botswana, Namibia, Swaziland, South Africa, Lesotho,

Ku-Band Satellite Coverage

**T12V
Ku-Band**

T12v - 15° West
(New Service)

Data, Voice
Broadcast

- Max 50 Mbps Rx and 25 Mbps Tx
- Up to 150 computer connected
- Antenna size of 1.2m (standard)
- 1.8m and 2.4m for ultra-high capacity
- 60cm or 75cm or 90cm for special applications

Examples of Countries Coverd

Chad, Sudan, South Sudan, Ethiopia, Eritrea, Somalia, Central African Republic, Congo, Tanzania, Kenya, Uganda, Angola, Zambia, Malawi, Mozambique, Madagascar, South Africa, Lesotho, Swaziland, Namibia, Botswana, Zimbabwe, Rwanda , Burundi,

Ka-Band Satellite Coverage

Konnect Africa

- Max 50 Mbps Rx and 6 Mbps Tx
- Up to 50 to 80 computer connected
- Antenna size 74 cm or 98 cm & 1.2m for high capacity
- SLA of 95%
- Dedicated access (1:1) & shared access available
- Volume base

Satellite Modem

iFAST-IP (≤ 50 Users)

- Up to 10.5 Mbps on the receive and 1 Mbps on the transmit.
- Offers 512 TCP Connections.
- DVB-S2 ACM satellite access.
- 2 VLAN

iFAST-Accent[PRO] (≤ 300 Users)

- 19" rack Pro Up to 50 Mbps receive & 25 Mbps transmit.
- Dual MF-TDMA/SCPC carrier.
- 128 GB On-board Proxy active caching.
- Powerful processor.
- DVB-S2 ACM inbound & outbound.
- 8 VLAN

HT-2000 (≤ 25 Users) for Ka-Band

- The HT2000 50 Mbps / 5 Mbps, Next-generation satellite terminal featuring support for wideband.
- DVB-S2X forward channel.
- Delivering the industry's best efficiency.

FIXED VSAT 50 Mbps Satellite IP

C-Band (SLA 99.99%) Fixed VSAT iFAST

High speed Internet connection from GlobalTT satellites. Unlimited shared or dedicated access. Regulated by the Fair Usage Policy. Free online monitoring.

Double speed during off-peak. High speed iFast modems. High quality Satellite Dish (1.8 m, 2.4 m and 3.8 m). Speed up to 50 Mbps / 25 Mbps.

Ku-Band (SLA 99.7%) Fixed VSAT iFAST

Unlimited shared or dedicated access where you have the volume unlimited and the speed has to be chosen.

Free online monitoring. Your connection is twice faster in of peak time. High quality Satellite Dish (90 cm, 1.2 m and 2.4 m). High speed iFast modems. Speed up to 50 Mbps

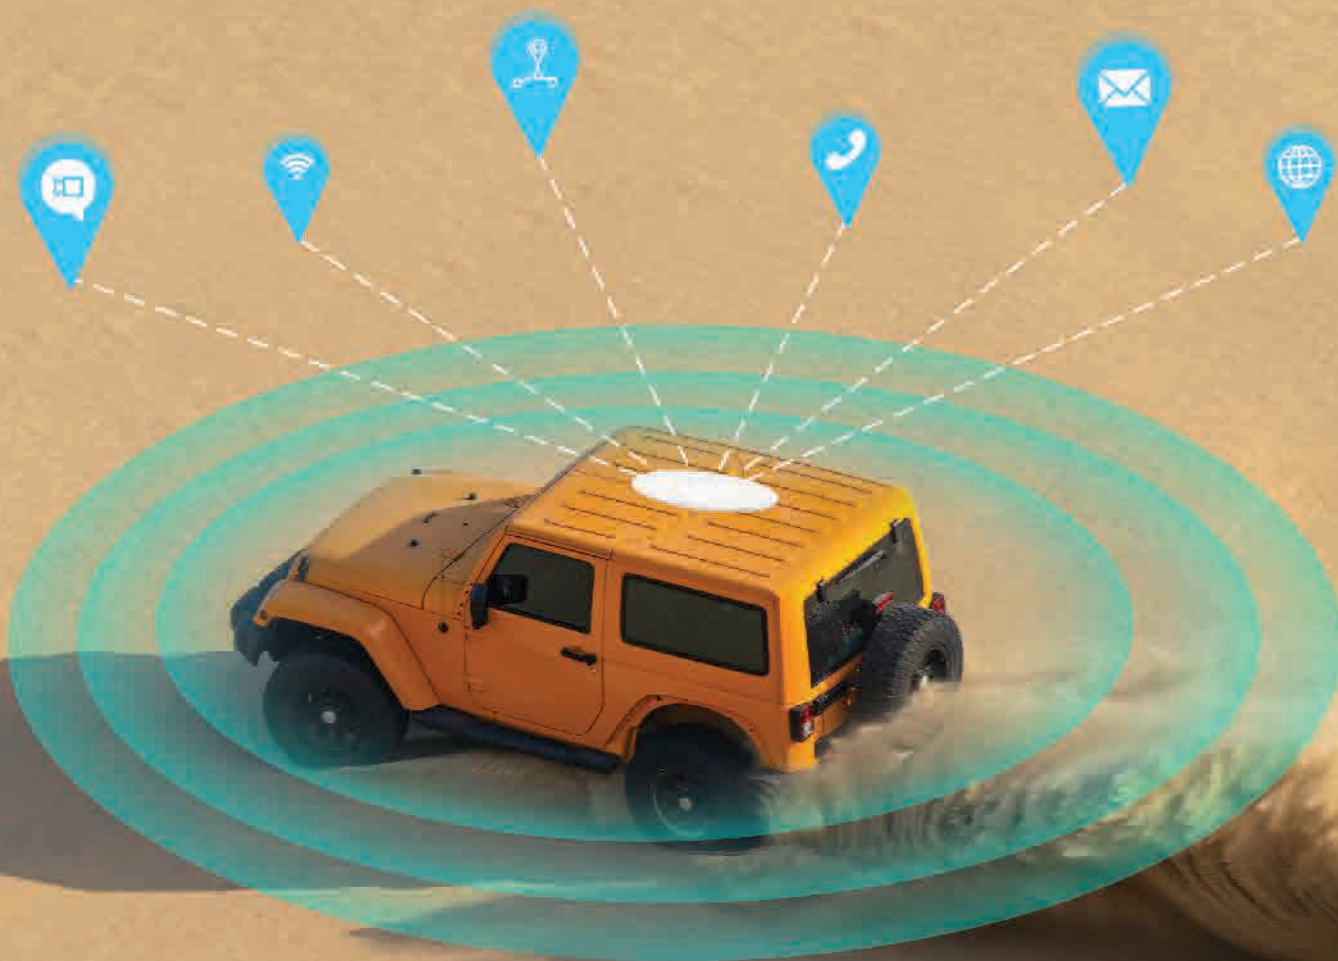

Ka-Band (SLA 95%) Fixed VSAT iFAST

High-performance low-cost VSAT satellite for Business users (SOHO & SME).

Uninterrupted, high-speed & low-cost Internet in the coverage area from GlobalTT. Up to 50 Mbps. Weather sensitive.

OPERATIONS WHILE YOU ARE ON THE MOVE

Ku-Band Flat Electronic Vehicle On-the-move

Auto Alignment / Operation

Lightweight, slim, and high-throughput communication systems that connects nearly any vehicle, vessel, or fixed platform easy. Holographic Beam Forming. Omnidirectional. No Mechanic, 5 Mbps Rx & 2 Mbps Tx

VEHICLE KYMETA

Low profile satellite tracking internet antenna, simple and easy to install. Instant satellite acquisition.

Vehicle-IP VSAT Connection

Vehicle mounted VSAT antenna. High speed internet iFast applications. In a couple of minutes - Up to 50 Mbps

Transportable VSAT

Kymeta Flat Electronic VSAT Ku-Band

Ultra fast satellite acquisition. Super easy & fast to use. Deployment by non technician. Electronic Alignment (Plug & Play Operation)

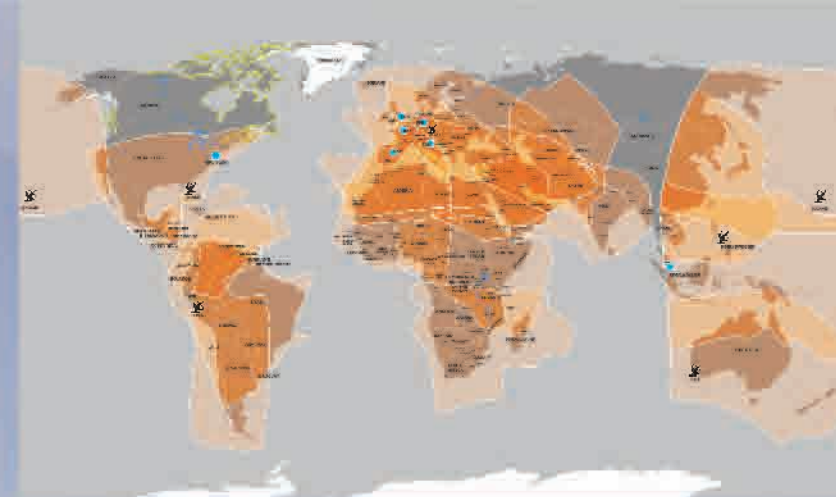

5 Mbps Satellite Ultra Mobility

IP-SATCUBE Ku-Band VSAT Unit

The Smallest VSAT Enabling Quick Access Only 8 Kg. Get Connected in under a minute. 3 hours battery time. Wi-Fi Ethernet

10 Mbps Portable Satellite IP

Flyaway - Portable VSAT Unit

Flyaway VSAT antenna designed to move easily and be operational easily and quickly over satellite.

**Internet up to 50 Mbps
Manual Alignment & Operation**

Vehicle Ku-Band VSAT

1.0m Stabilized, Auto-Acquire, Fly-Away Antenna Systems. Vehicle Settings.

50 Mbps

MARITIME MARKETS SUPPORTED

Superyachts | Commercial Shipping | Cruise Ships

Energy, Oil and Gas | Commercial Fishing

Pleasure Boating | Barges

Maritime VSAT 50 Mbps Satellite IP

Compact size and lightweight design satellite maritime VSAT unit. 60cm Ku-band VSAT antenna and 90 cm.

Kymeta VSAT 5 Mbps Satellite Ultra Mobility

New way of connectivity for global maritime communications. Auto-pointing- very reliable Light Weight & Ultra fast satellite acquisition. 5 Mbps / 2 Mbps

DELIVERING INTERNET VSAT Wireless

MICROWAVE RADIO LINK (Point-to-Point)

Point-to-point radio, Ethernet LAN (RJ45) Radio range line of sight (LOS), supporting, LAN & VLAN

- < 5 Km (LOS) • 2 GHz to 90 GHz
- 2.4 GHz or 5 GHz, 60 GHz
- 1Mbps, 10 Mbps, 100 Mbps, 1 Gbps, 10 Gbps

1 Mbps up to 10 Gbps - Point-to-Point - LAN Ethernet

Wi-Fi Long Range 1.5 Km Radio Range

- Wi-Fi 2.4 GHz / 5 GHz: 1.2 Km to 1.5 Km per Cell,
- Repeater included for 10Km radio link in 4.9 GHz to 5 GHz • Extend the coverage • Adaptive interference control • Antenna beam forming
- Multi-function wireless system & method • Design for high density usage • Multi- Cell

Wi-Fi Medium Range ≤ 600 m Radio Range

Designed to be used for high density user environments, that delivers high speed data internet in Wi-Fi protocol 2.4 GHz and 5 GHz.

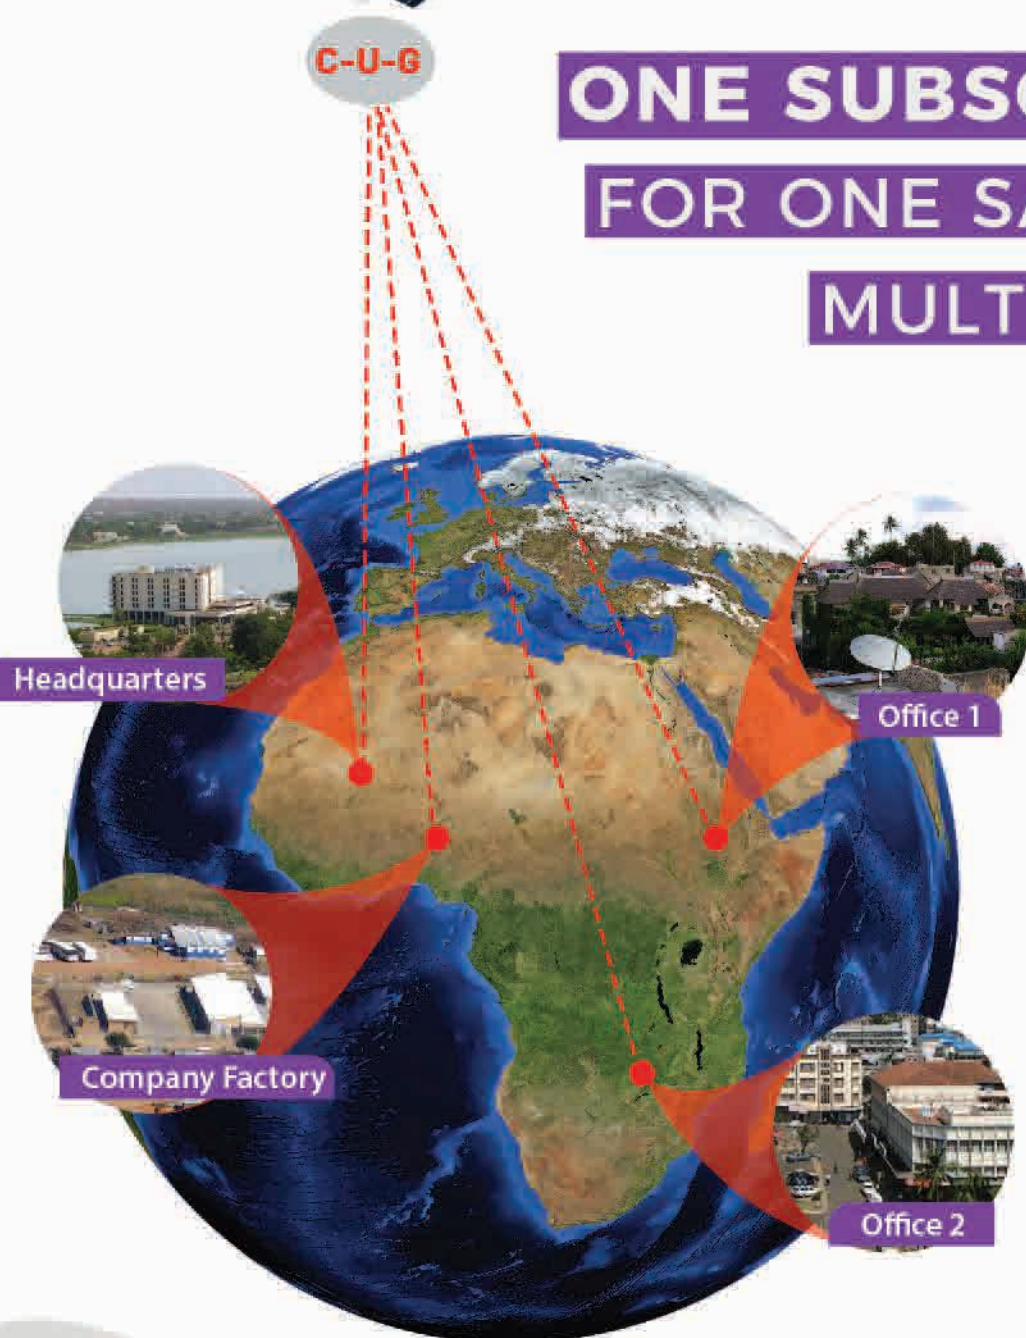

POINT-TO-POINT (Multi-Point 1Km)

- ≤ 1 Km Range • Up to 100 Mbps • 2.4 GHz, 5 GHz & 60 GHz
- High-performance high-gain antenna • CPE, Access Point or repeater • Integrated alignment mechanism
- Weatherproof case (IP55 compliant)
- WiFi protocol

**≥1 Km Range 100 Mbps & 2 Gbps
Solution up to 5 Km**

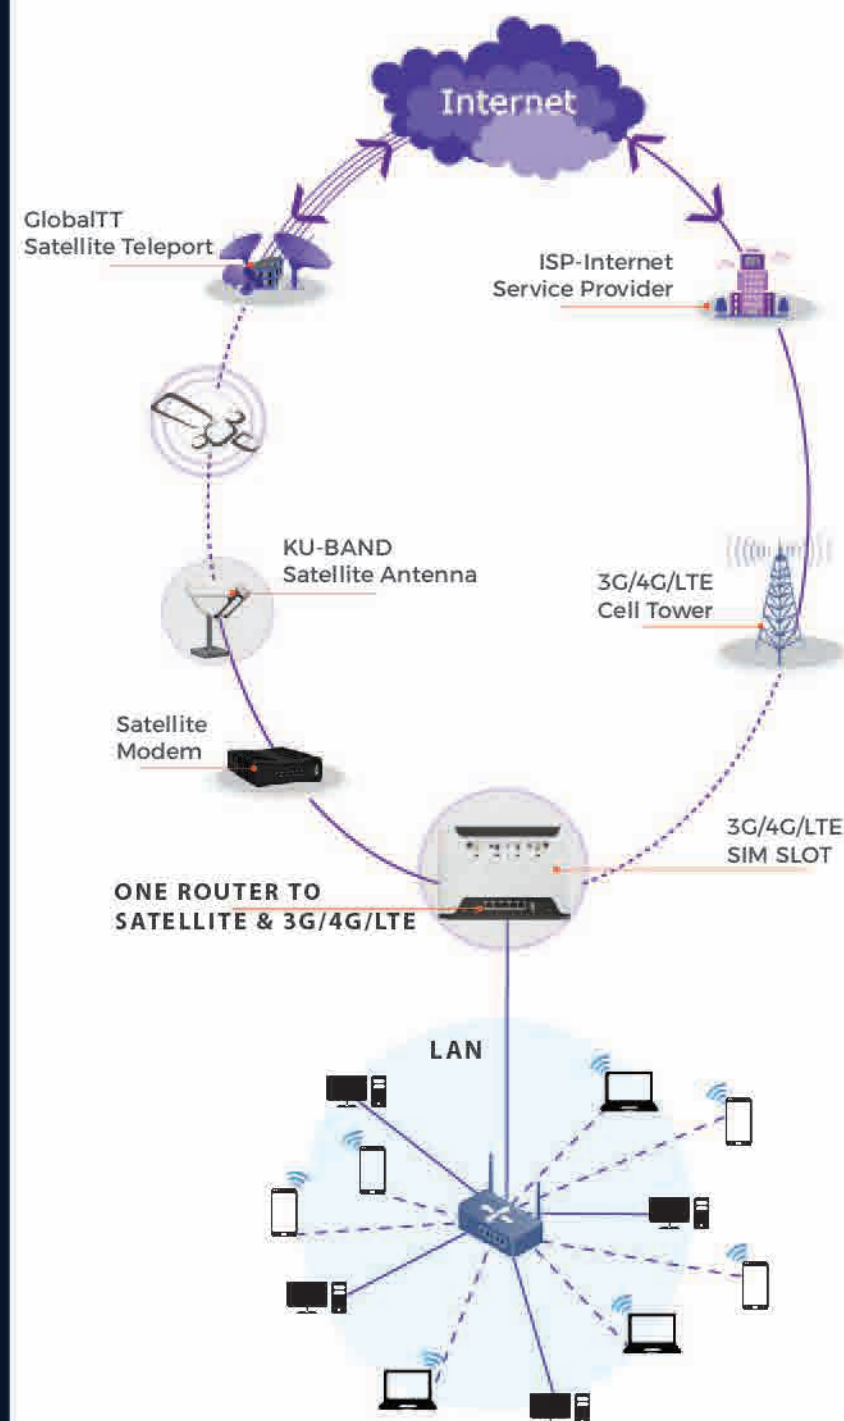

ONE SUBSCRIPTION FOR ONE SAME TEAM MULTIPLE SITES

Main Features

- Same Satellite Capacity for your Organization
- Only 1 subscription and capacity for all your VSAT stations.
- Much Cheaper than multiple subscriptions

VSAT FAILOVER & LOAD BALANCING

GlobalTT provide full redundant
Load Balancing / Failover

- Full redundancy • Internet 100% available - 24/7
- Load Balancing & priority protocol
- Full security • Satellite + Satellite
- Satellite + Local Fiber • Satellite + Local 3G/4G /LTE
- SLA 100% • 2 X Sources • Fully managed

Satellite & Surveillance

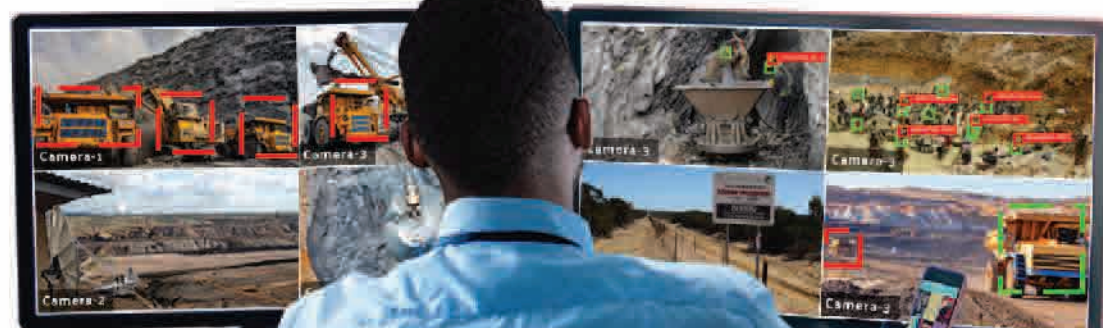

Satellite Solutions for high definition Clouding Webcam

UHD WebCam, video recording, face recognition, IP Place recognition, virtual fence and virtual security boarder, all in SD

- Smart Webcam & face recognition
- Indoor/outdoor
- Day & night vision & IR

Electronic Zoom PTZ | Recording function on-board | Clouding
Virtual Fens Detection | Satellite specific tuning and BW | IR - Night Vision
Ultra-High Definition (UHD) | 8K / 4K | Wi-Fi Antenna | Solar Panels | Rugged Case

Satellite & Video Conference

CLOUDING satellite solutions for video conference and Ultra high definition video.

- Video Conference Room Satellite Optimization
- Secure & Fast Communication
- Crystal clear picture & Video / Audio
- 8K & 4K Compatibility
- Point to multi point private satellite video conference

Satellite Connected Drone

Professional Quad Motor Drone (Satellite Connected)

60 km/hr Flight Speed	40 min Battery Life
8K Video 48MP Camera	360° Obstacle Avoidance

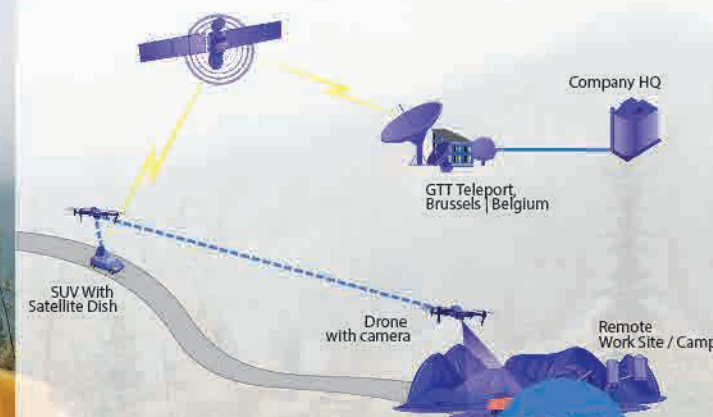

Automatic Plane (Super Long Endurance)

5 SECOND SYSTEM BOOT AND SELF CHECK	120 MINUTE OPERATIONAL RANGE
2000M INFRARED DETECTION RANGE	3 MINUTE QUICK ASSEMBLY
4K 20X STABILIZED OPTICAL ZOOM	

VTOL Fixed-Wing Drone (Vertical Take-off & Landing)

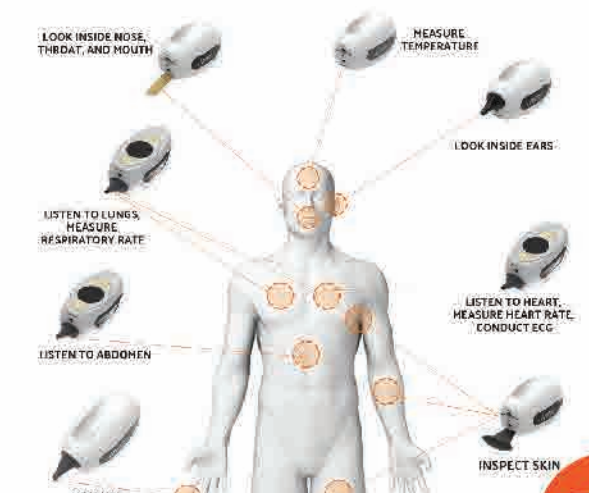

≥100 km OPERATIONAL RANGE	10kg PAYLOAD
90 km LIVE FULL HD VIDEO	10hrs+ ENDURANCE
3000m SERVICE CEILING	

Satellite Telemedicine

We provide multiple diagnostic tools in a single, easy-to-use handheld device operate through satellite.

Always on communications

Inmarsat Worldwide has a broad portfolio of voice and data services to satisfy your communications requirements. From hand-held satellite phones and remote site fixed installations, to vessel, vehicular mobile terminals.

inmarsat

MSS - Satellite Phones

GEO VOICE

ISATPHONE GEO Sat-Phone

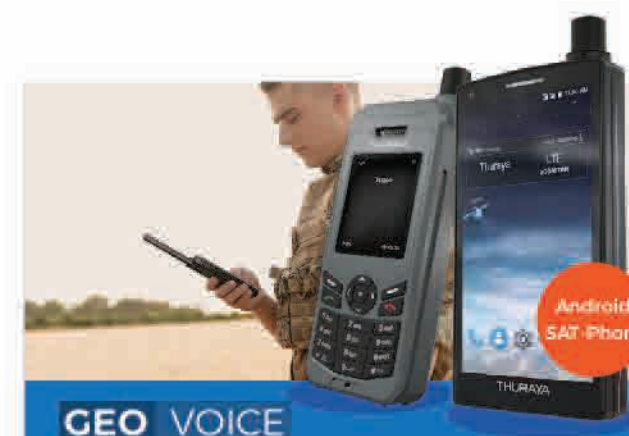

A global Inmarsat GEO satellite Phone rugged handset excellent quality "voice". Tracking - sends location information. Voice-mail, text & email messaging.

LEO VOICE

IRIDIUM PTT Push-To-Talk

Iridium PTT ® is a Worldwide global group communications service. Provides a simple Push-to-Talk connectivity "Two Way Radio". The relays or repeaters are the Iridium satellites in the sky.

GEO VOICE

THURAYA X5-TOUCH & XT LITE

- Fully ruggedized • Dual mode. Dual SIM. • SAT and GSM "Always On" • Advanced navigation capabilities • Most powerful battery - 1 Week • Dedicated SOS button • Make the most out of your camera • Expand

LEO VOICE

IRIDIUMGO Portable Connection

Voice & 100 Kbps Data World Service, creates the first ever reliable global "BOX" for voice calls, text messaging, Small internet, emailing services and emergency SOS system using your own laptop, Tablet or smart-phone.

CONNECT WORLD FROM WHERE EVER YOU NEED INTERNET

ISATHUB(IP) DATA GEO

Smart Connectivity

The IsatHub service **accessible from your iPhone, iPad and/or iPod touch or Android[TM] device**. IsatHub is a medium / low speed, low cost worldwide internet connectivity in L-band on the GEO Inmarsat satellite network. ≥ 384 Kbps

THURAYA "WE"(IP) DATA GEO

Connecting Everyone Everywhere

- Super low cost
- Single SIM, dual mode hotspot
- Data at ≥ 384 Kbps
- Calls and text messages in Satellite Mode
- Lightweight and durable

INMARSAT BGAN DATA GEO

Many Options

World Wide Inmarsat satellite GEO BGAN terminal (Explorer series) and subscription. Connect to the internet from practically any region of the world up to 1 Mbps in L-Band

THURAYA-IP+ DATA GEO

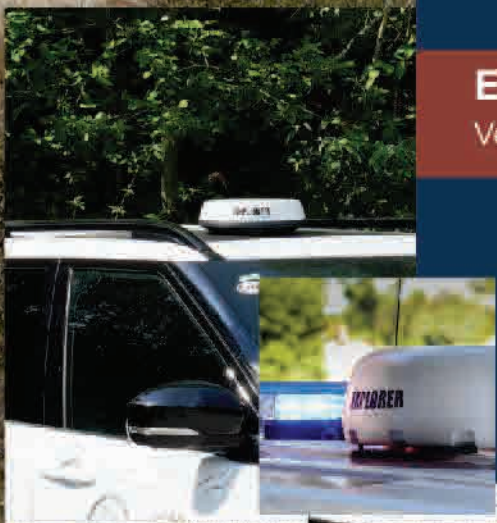

User Friendly Connectivity

GEO satellite Internet device
Speed up to 444 Kbps regionally IP55
Battery life 36 hours | 1.4 Kg

EXPLORE THE WORLD WITH RELIABLE VEHICLE INTERNET

EXPLORER 325 **GEO** Vehicle Internet

A vehicle satellite GEO Inmarsat BGAN Broadband Internet Global Terminal - 464 Kbps, Internet, Email, Phone, FTP,

THURAYA IP VOYAGER **GEO** Easy & Reliable | Connectivity on the Road

Designed to connect at speeds of up to 444kbps while on the move. The Thuraya IP Voyager is the only terminal capable of achieving streaming IP rates of up to 384kbps

INMARSAT EXPLORER 727 **GEO** In-Motion BGAN Satellite Terminal

The Explorer 727 automatically connects to the BGAN Network. There's no need to track satellite positions or Schedule air time. Just switch it on and you're good to go. Dual purpose (Fixed/On the move). Secure Communication.

THURAYA MCD VOYAGER **GEO** Portable auto-pointing satellite broadband terminal

Mobile Communications Device' that delivers superior mobility without compromising on connectivity. Comes with a click and go feature. Operated by a single button. Establishes a Wi-Fi internet hotspot. Up to 444kbps

COMMUNICATIONS FOR SEA OPERATIONS INTERNET

INMARSAT FLEET ONE **GEO**

Telecommunications at sea

'Plug & Play' ethernet connection to a computer, can support multiple smartphones, tablets and computers via an optional Wi-Fi router. Access internet, write emails and make phone calls.

THURAYA ATLAS IP **GEO**

The new wave in satellite communications at sea

Maritime-specific broadband terminal, improved power efficiency, a smaller form factor, and greater versatility. Single cable connection to the stabilized antenna built-in Wi-Fi. Remote IT Support/Video Conferencing/VoIP Vessel Tracking/Regulatory Compliance. Corporate Internet Access

C700 INTELLIAN **GEO**

Delivering Iridium Certus® Broadband for Maritime

Easy Installation and Simple Configuration
Delivers up to 352 Kbps Up/704 Kbps Down
Optimized for VSAT Companion Use
Reliable Solid-State Technology
Designed for 10-Year Operational Lifetime

VesseLINK 700 **GEO**

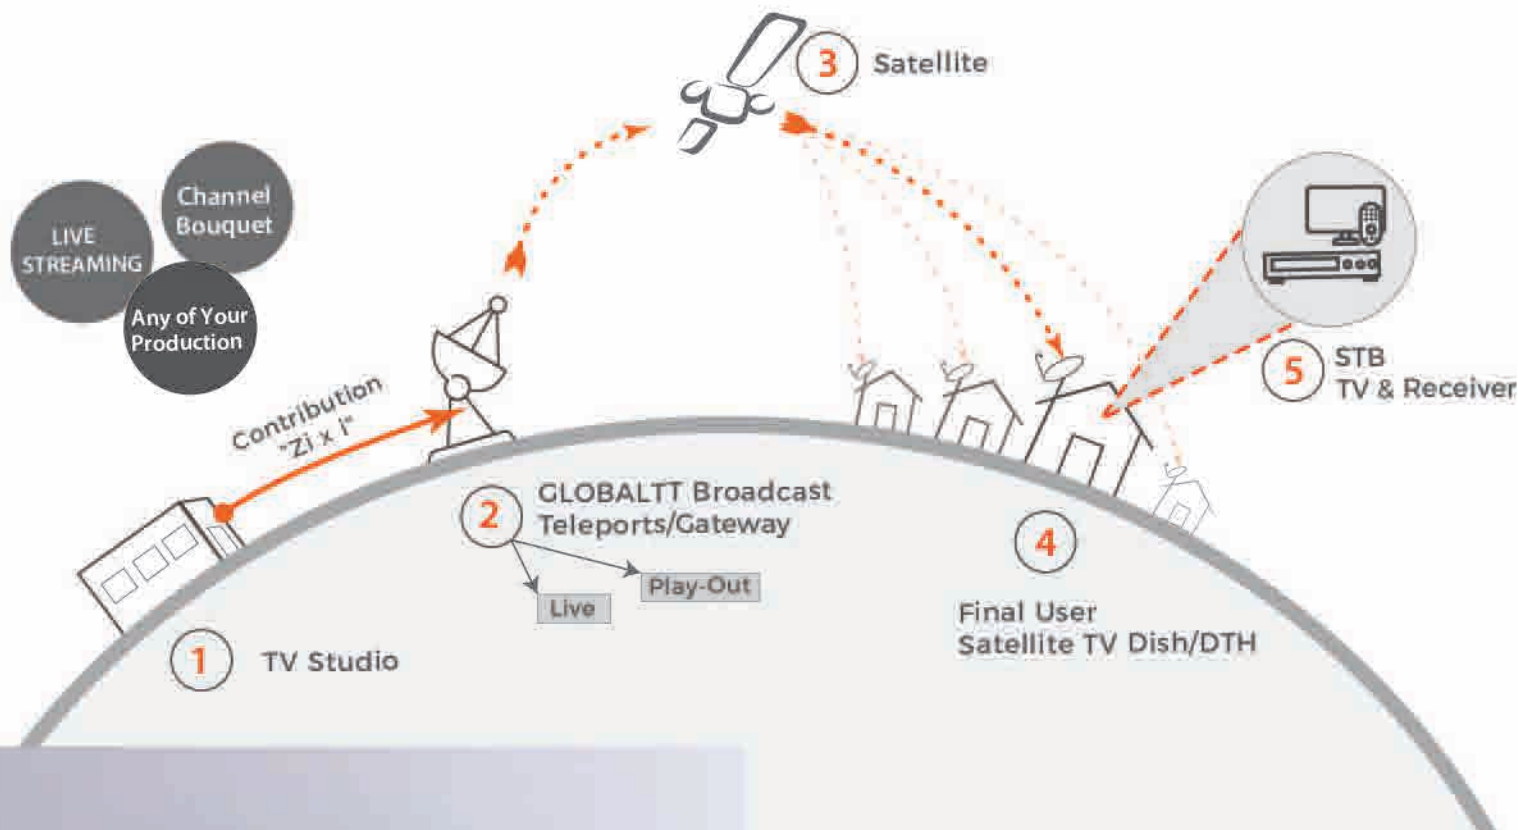

Light-Weight Communications for at Sea Operations

Delivers Up to 352 Kbps Transmit/704 Kbps Receive. Rated for Water, Vibration, and Shock Resistance. Optimized for VSAT Companion Use with Built-In Preferred Routing Switch. High-Gain, Electronic Phased Array Antenna with No Moving Parts

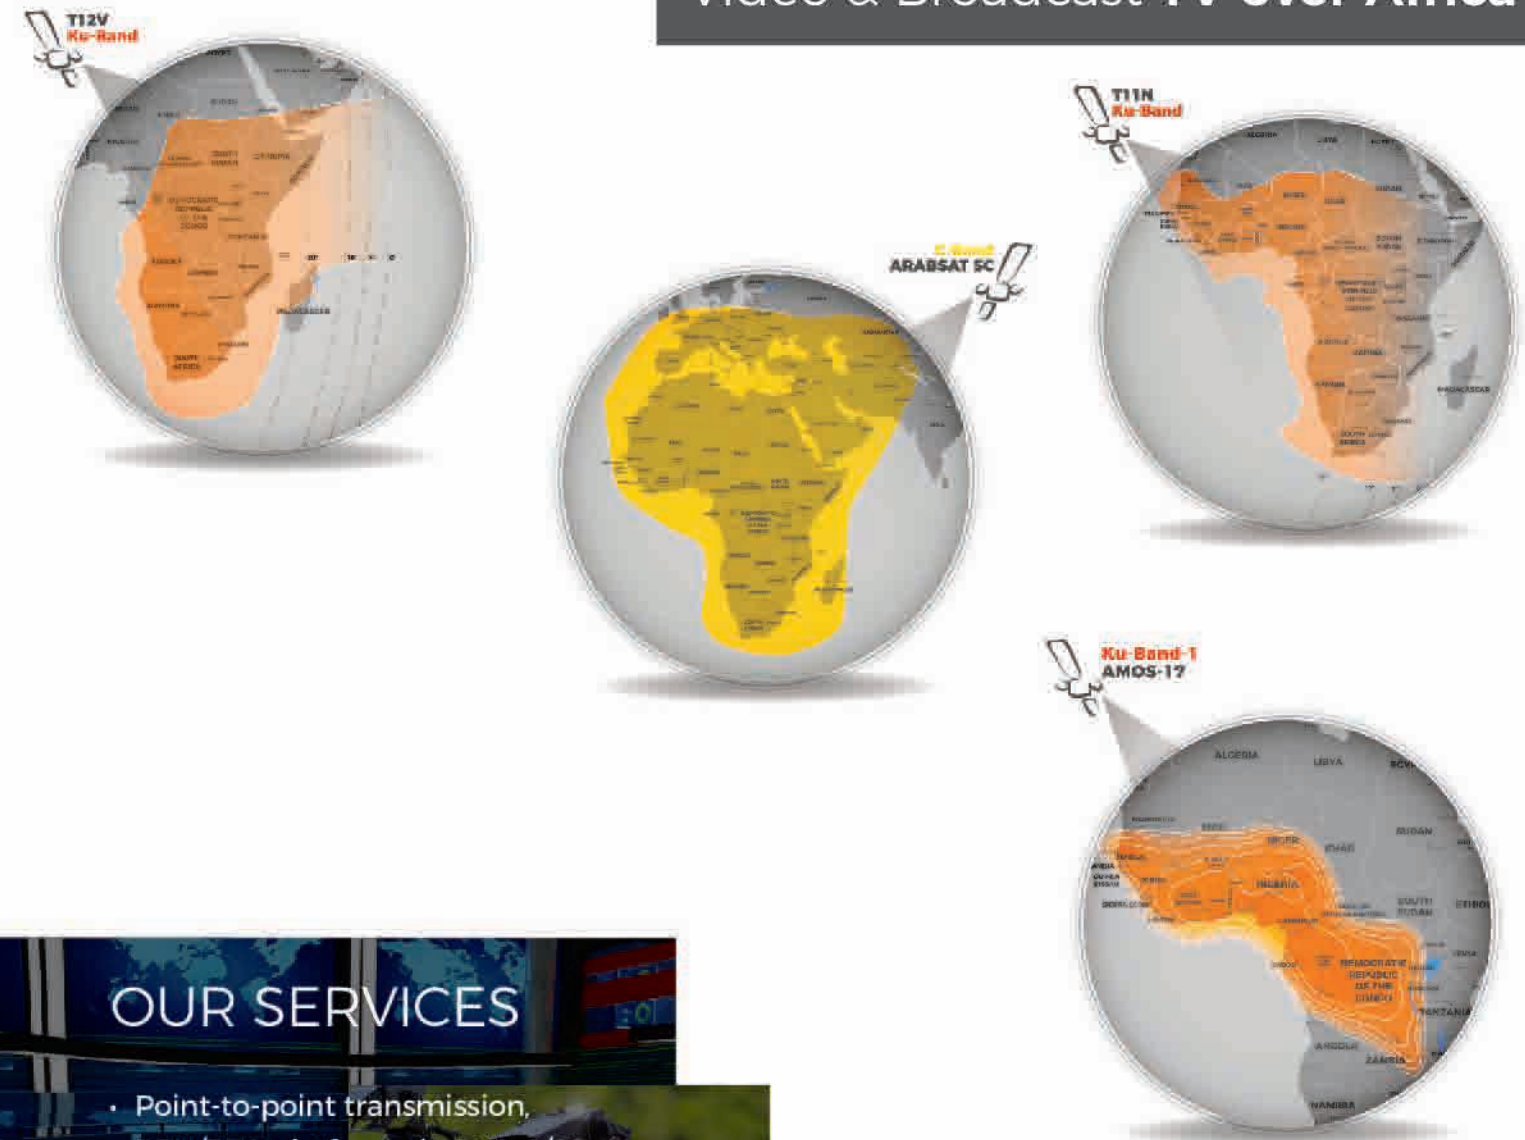

Premium satellite Digital TV HeadEnd

- Managed playout solutions.
- Manager linear or live Satellite diffusion and content video transmission.
- Satellite TV content provided and encoded in Low-SD, SD, HD, UHD.
- Individual Satellite program delivery and distribution.
- Platforms allow you to cover the entire EMEA region
(Africa, Middle-East, Europe, a part of central Asia & South / Central America.)

Video & Broadcast TV over Africa

OUR SERVICES

- Point-to-point transmission, DTH/DTC platform via DVB-S/S2.
- Households in Europe, North Africa, and the Middle East as far as central Asia can be covered.
- 4 satellite orbital positions to reach more than 2 billion person TV in more than 60 countries.

- C-band and Ku-band (3.6m C-band HeadEnd and 60cm or 90 cm Ku-band DTH)
- Sustained annual availability of > 99.99 %.
- 24/7/365 helpdesk.
- DVB multiplexing.
